

resTORbio to Present at the Bank of America Merrill Lynch 2018 Health Care Conference

May 9, 2018

BOSTON, May 09, 2018 (GLOBE NEWSWIRE) -- resTORbio, Inc. (NASDAQ:TORC), a clinical-stage biopharmaceutical company focused on helping people live healthier longer through the development and commercialization of novel therapeutics for the treatment of aging-related diseases, today announced that company management will present a corporate overview at the Bank of America Merrill Lynch 2018 Health Care Conference on Wednesday, May 16, 2018 at 10:15 a.m. PT (1:15 p.m. ET) in Las Vegas, NV.

A live webcast of the presentation can be accessed on the Investors section of resTORbio's website at <http://ir.restorbio.com/investors>.

About resTORbio

resTORbio, Inc. is a clinical-stage biopharmaceutical company focused on helping people live healthier longer through the development and commercialization of novel therapeutics for the treatment of aging-related diseases. resTORbio's lead program is targeting the selective inhibition of TORC1 - an evolutionary conserved pathway that contributes to the decline in function of multiple organ systems, including the immune, cardiac and neurologic systems. RTB101, resTORbio's lead drug candidate, is a selective, orally administered, TORC1 inhibitor currently being investigated in a Phase 2b clinical trial as a first in-class immunotherapy for reducing the incidence of respiratory tract infections in the elderly by enhancing the function of the immune system. The company expects to develop RTB101 for additional aging-related indications such as heart failure or neurodegenerative diseases.
